---

## Professional Summary

Full-stack developer with 6 years of progressive experience in designing, developing, and deploying enterprise applications. Skilled in .NET Core, Angular, SQL, and Azure cloud services, with proven expertise in building scalable RESTful APIs and modern web applications. Strong background in collaborating across teams, growing from L1 and L2 roles to Senior Analyst Programmer, and delivering impactful business solutions.

---

## Key Skills

- **Languages & Frameworks:** C#, .NET Core, Angular
  - **Databases:** SQL Server
  - **Cloud & Integrations:** Azure Functions, Azure Data Factory (ADF)
  - **API Development:** REST APIs, Web Services
  - **Tools & Practices:** Git, Agile/Scrum, CI/CD
- 

## Professional Experience

**Xceedance consulting india private limited — 2019–Present**

### Senior Analyst Programmer (2022–Present)

- Developing new features and led redevelopment of existing modules by migrating from **.NET Framework + AngularJS** to **.NET Core + Angular**, applying **CQRS and Clean Architecture** principles to enhance system reliability and long-term maintainability.
- Maintained and patched **Azure Functions and ADF pipelines** as required, while designing new pipelines to support upcoming feature deployments and ensure smooth data processing.
- Collaborated with architects and product owners to design cloud-based solutions, improving application uptime and reliability.
- Mentored **3 junior developers**, increasing team code quality and accelerating feature delivery.

### Analyst Programmer (L2) (2021–2022)

- Spearheaded development of modules in the **Resource Project**, delivering new functionality that improved internal resource allocation efficiency by **30%**.
- Implemented a **calendar module** using **ASP.NET and AngularJS**, enabling users to efficiently schedule, view, and manage events within the application.
- Designed and fine-tuned **SQL queries and stored procedures**, ensuring efficient data retrieval and smoother application performance.
- Acted as key liaison with QA teams, improving defect resolution speed through better requirement clarification.

### **Analyst Programmer (L1) (2019–2021)**

- Contributed to the **NARS project**, building core backend features in **.NET Framework** and front-end components in **AngularJS**.
- Contributed to the **NARS project** by delivering key features, resolving critical bugs, and providing production support, improving overall system reliability.
